## **SMITH & NEPHEW**

Smith & Nephew's dedication to healthcare is far-reaching. Now a worldwide leader with an ever-expanding range of products and services for wound, skin, IV and burn care, we continue to make a difference for patients and the institutions serving them.

## **COOK MEDICAL**

COOK proudly presents the DP-M250 Doppler Blood Flow Monitoring System. The enhanced monitor features improved signal clarity and simplified operation. When coupled with the innovative Cook-Swartz implantable probe, the system extends its position as the gold-standard for detecting free-flap perfusion.

## **KCI**

KCI USA is dedicated to the healing process, offering a continuum of products and therapies that meet demanding patient requirements in all care settings. KCI's V.A.C.<sup>®</sup> (Vacuum Assisted Closure™) Therapy System is an advanced system for wound healing that assists granulation by applying localized negative pressure to the wound, removing interstitial fluid and infectious materials.

## **POREX**

Porex Surgical, Inc., an operating subsidiary of Porex Corporation, is the innovative company behind the Porex Surgical Group. Porex Surgical Group products are sold throughout the United States and through distribution in more than 45 countries around the world.

## **SYNOVIS MICRO COMPANIES ALLIANCE, INC.**

Synovis MCA, "the microsurgeon's most trusted resource," provides innovative advancements and technologies for microsurgery. We are excited to announce that we are now the exclusive US distributor of S&T<sup>®</sup> Microsurgical Instruments! Each S&T<sup>®</sup> instrument is crafted from premium materials, and is built from a solid foundation of research, expert cooperation and engineering. The COUPLER, GEM Microclips and Biover Microvascular Clamps are precise instruments that help save valuable OR time. The GEM Neurotube is used to assist with nerve repair/regeneration. The Varioscope<sup>®</sup> is the world's smallest head-mounted surgical microscope.

## **SURGICAL SPECIALTIES CORPORATION**

Surgical Specialties Corporation features a wide range of Sharpoint<sup>®</sup> microsutures and microsurgical knives. The Sharpoint<sup>®</sup> brand with its M.E.T.<sup>®</sup> needle technology is recognized as the leader in the Microsurgery market. For more information, please contact our Customer Service Team at 800-523-3332.

## **ZIMMER**

Founded in 1927 and headquartered in Warsaw, Indiana, Zimmer is a worldwide pure-play orthopaedic leader in the design, development, manufacture and marketing of reconstructive and spinal implants, trauma and related orthopaedic surgical products.

## **KLS MARTIN**

Precision instrumentation and plating for Cranio-facial Flap surgery and plastic surgery. (704) 578-0058

## **INTEGRA**

Integra LifeSciences Corporation, a world leader in regenerative medicine, manufactures and markets medical devices used in plastic and reconstructive surgery, orthopedics and general surgery. These products focus on upper extremity fixation, lower extremity fixation, wound repair, tendon protection, and peripheral nerve repair/protection. Integra's reconstructive portfolio includes NeuraGen Nerve Guide, Integra Dermal Regeneration Template and the KMI and Newdeal line of products for extremity fixation.

## **STRYKER LEIBINGER**

Stryker Leibinger's Micro Implants division is the worldwide leading manufacturer of implants for Craniomaxillofacial Surgery, Handsurgery, and Neurosurgery. Our newest groundbreaking CMF products and partnerships include: Universal Mandible; Universal CMF; Universal Orthognathic; and a partnership with INION Resorbable Products.

## **UNITED STATES SURGICAL**

United States Surgical, a unit of Tyco Healthcare Group LP, is a leading manufacturer of innovative wound closure products and advanced surgical devices. Our products are available through two primary business divisions: the Auto Suture Division, which offers a complete line of surgical devices and laparoscopic instrumentation for general and specialty procedures, and the Syneture Division, one of the most comprehensive suture product lines in the industry.

Through technology innovation, empowering education, and customer focused solutions, each U.S. Surgical division works collaboratively with physicians, nurses, and administrators to offer the best products and efficiencies possible for the benefit of the healthcare community and its patients.

## **LIFECELL CORP.**

Lifecell produces AlloDerm, a bioactive regenerative tissue matrix made from acellular human dermis. As strong as synthetics, AlloDerm rapidly revascularizes, repopulates with the patient's cells, and ultimately transitions into host tissue such as gingiva, dermis and fascia. AlloDerm excels as a biological mesh in challenging hernia repair. [www.lifecell.com](http://www.lifecell.com)
